Languages: PHP, JavaScript, Python, PowerShell, Java

Web: HTML5, CSS3, JavaScript, AJAX, jQuery, React.js, Next.js, Tailwind CSS, Bootstrap

Backend & Database: PHP, MySQL, CRUD operations, database integration, authentication, role-based access control

Tools: Git, GitHub, VS Code, Vercel

Technical: Debugging & Troubleshooting, Problem Solving, Testing, Performance Optimization, Team Collaboration

EXPERIENCE

System Developer Intern - BonzAire Enterprises, Pasig City

Feb 2026 – May 2026

- Developed and maintained web-based frontend and backend features.
 - Integrated databases and dynamic content rendering using PHP and MySQL.
 - Assisted with system debugging and SEO optimization.
 - Collaborated with team members to meet project deadlines.
-

SELECTED PROJECTS

Air Conditioning Service Booking System - BonzAire Enterprises

Feb 2026 - May 2026

- Developed a web-based booking system for HVAC cleaning, maintenance, repair, and installation services.
- Built frontend and backend features using PHP, MySQL, HTML, CSS, JavaScript, and Bootstrap.
- Implemented appointment scheduling, service management, booking requests, and administrator dashboards.
- Integrated MySQL for customer information, booking records, and service history.
- Implemented authentication, role-based access control, input validation, and secure database interactions.

Student Monitoring System - Lead System Developer, STI College Sta. Mesa

- Developed a web-based student monitoring system with CRUD operations and AJAX real-time updates.
- Conducted testing, debugging, and performance optimization.
- Coordinated with team members on system requirements.

Personal Portfolio Website

- Developed a responsive portfolio using HTML, CSS, JavaScript, React, Tailwind CSS, and Next.js.
 - Deployed the application on Vercel and showcased projects with live demos and GitHub repositories.
-
